V4253D-U2

Open Frame
Dispersive Signal
Technology
USB Connection

The V 42" Open Frame Display is one of TouchSystems' more budget-conscious displays, but the price tag is perfect for the person entering the touch technology arena. The display itself is LCD, ensuring crisp images and brilliant colors. It also can be mounted on the wall or embedded in a table top, which allows it to be featured in a variety of environments and venues.

Retail

The V 42" Open Frame Display provides a selection of inputs, allowing for better management of one's digital signage.

Medical

The V 42" is built to last. Its commercial-grade design is meant to account for high-touch activity.

Hospitality

The display's high brightness and contrast ratios will present images in their full, brilliant glory.

Restaurant/QSR

Use the display to announce new menu items, specials, or the newest foursquare Mayor.

Specifications
